

Ee Fai Kam

Head of Asian Data & Research Data Centre
Preqin

Ee Fai Kam joined Preqin in 2010. In his current role, Ee Fai is based in Singapore where he leads the development of research strategy and manages research operations in Asia, which are spread across Singapore, Hong Kong and Manila. The Asian team operates in a wide variety of languages, including Chinese, Japanese, and Korean. The team not only has direct relationships with investors and fund managers, but also extracts information from regulatory filings, annual reports, and online sources.

Initially, Ee Fai focused on research on private equity, real estate, and infrastructure sectors. He was one of the pioneers to start in-depth coverage of the Chinese market. Ee Fai graduated from Nanyang Technological University in Singapore with a Bachelor degree in Materials Engineering in 2010.
