

RESOURCE BIOGRAPHY

Ali Izadi-Najafabadi

Head of Japan & Korea

EXPERIENCE AND EDUCATION

Ali oversees an analyst team focused on research and analysis of Japan and Korea's energy sector covering topics such as LNG supply and demand, new energy retail strategies, and the future of electrified transport. His prior experience includes working at the National Institute of Advanced Industrial Science and Technology, and the fuel cell manufacturer, Ballard Power Systems. Ali has an undergraduate degree in Engineering Physics and a Masters in Electrical Engineering from the University of British Columbia, and a Doctorate in Materials Science from Meijo University.
