

Toshihiko Honkura, MBA, President, CEO, Co-Founder, Quantum Biosystems

A co-founder of Quantum Biosystems Inc., Toshihiko represents the company as both president and CEO. After a genome research project at the University of Tokyo, he went on to gain ten years' hands-on experience in business management and investment analysis as a manager at McKinsey & Company and the Innovation Network Corporation of Japan (INCJ), a public-private Japanese fund. He has a master's degree in Analytical Biochemistry from the University of Tokyo and an MBA from Columbia University. The scientific and business management acumen he brings to the team affords the company excellent and tested leadership.
